Drum Adaptors

Most plastic drums have a 2" coarse threaded opening and most drum pumps and drum taps have a 2" BSP thread. So, to fit these to your drum you need an adaptor to convert the drum thread to 2" BSP. We have adaptors to convert the 3 most common coarse threads to 2" BSP. However, there are a lot of drums in our market that are copies of the main manufacturer's drums and we have been unable to source adaptors for these.

We also have adaptors to convert jerry can threads to 2" BSP, and we also have a range of IBC (1000L tank) adaptors.

56x4 Buttress Thread (Tri-Sure) 56mm OD, 4mm Pitch

Bung: 800727 Plain or 800608 with 3/4" threaded insert (can be used to fit a 3/4" tap to your drum)

Adaptor: 800570 56x4 male x 2" BSP female

64x5 Buttress Thread (Rieke) 64mm OD, 5mm Pitch

Bung: 800605 blank with 3/4" threaded insert that can be knocked out to fit a vent or tap.

Adaptor: 800515 64x5 male x 2" BSP female

70x6 Buttress Thread (Mauser) 70mm OD, 6mm Pitch

Bung: 800612 with 3/4" threaded insert (can be used to fit a 3/4" tap to your drum)

Adaptors: 800525 70x6 male x 2" BSP female - shallow male thread (a)

800530BK 70x6 male x 2" BSP female - longer male thread (b)

Adapting your drum thread to 2" BSP allows you to fit pumps and taps to your drum:
